Gel-Coat System

There is a difference between Air Assist and Air Assist Containment. Ask **David Pfeil** to explain how Air Assist Containment can assist your company on **how to lower your raw material costs**. Fluid-Air Products has the industry experience to assist you in making your company safe, clean and efficient. We can help in **minimizing down time, reduce your equipment spare parts costs** and in turn **help your profit margins**.

Our hands-on experience is the difference -- here are some services we can provide . . .

- ▶ Training seminars at Fluid-Air Products or at your location. Both technical and hands on.
- ▶ Repair service either at your location or Fluid-Air Products.
- ▶ Equipment parts and inventory management.
- ▶ Assistance in production consulting.
- ▶ Process improvement consulting.
- ▶ Incident Prevention.
- ▶ Regulatory Compliance.
- ▶ Return on Investment (ROI) Analysis
